Carcase Focus at Days Whiteface

In 2018 Days Whiteface will only be offering bulls by auction on property and at Alice Springs Show and Sale. Previously Days Whiteface have also offered bulls at Dubbo and Wodonga with considerable success. Dubbo highlights include Grand Champion and record price of \$90,000 with Calibre G74 in 2014. In 2016 their team of five bulls averaged \$34,800. Importantly they have won the commercially relevant EU performance class every year since its inception in 2013. Success at Wodonga has included averaging \$23,000 for five bulls in 2016. In 2014 they won all three polled division champions. Lachy and Lou have decided that their commercial clients that give them such great support at home deserve the opportunity to compete on all their bulls.

The 2018 on property offering will be the first offering of whiteface bulls in the state to have a selection that have genomic enhanced EBV's. Days believe this is a valuable tool to increase the EBV accuracy on young bulls. Days Whiteface have always been great supporters of the BIN project which has been instrumental in providing data for the genomic enhanced EBV's. This means their herd has a close relationship to the actual carcase traits collected in the reference population and therefore gives them great faith in the improvement genomics can make to their animals EBV's and accuracies.

Main sires represented in 2018 include new sire Injemira Anzac J188 who is a trait leader for 200, 400 and 600 day wt. He is also in top 1% of the breed for EMA and IMF. Proven American sire Mr Hereford 34Z is also a trait leader for 200, 400 and 600 day wt. He is in top 1% of the breed for EMA & milk. Home bred sires include the popular Robin Hood H38 who is a trait leader for EMA and gestation length. Heifer bull Ferrari K128 who is in the top 1% for IMF and scrotal size is also well represented.

This years bulls will be selected from a drop that averages in the top 15% across all four Hereford indexes. This drop is breed average for birthweight while averaging in the top 20% for 400 day weight. In the all important carcase area they average in the top 10% for EMA and top 25% for IMF. For anyone looking to increase the performance in their herd the bulls are certainly worthy of inspection.

Performance Quadrella at Dubbo 2016

Days Whiteface won both Champion and Reserve Champion EU Index and Supermarket Index bulls at Dubbo National 2016, these four bulls averaged \$40,000.

2018 SEES OUR TOP END BULLS BEING OFFERED ON FARM

Leading Young Sires on Offer

These four bulls have been used on heifers and cows in the Days Whiteface herd in 2017. We eagerly await their calves, and are retaining semen for within herd use only from all four bulls.
