# Buyers Information

## Inspection

All cattle will be available for inspection from 11.00am on the morning of the Sale, however inspection can be arranged before hand by appointment.

## Luncheon

Will be available on the property.

## Delivery

While every care will be taken, no responsibility can be accepted whilst awaiting delivery.

## Transfers

Please indicate on the Buyers Instruction Slip if a transfer is required.

## Health

All cattle are officially government confirmed as TB free and Brucellosis free. The property has a beef only status for Bovine Johnes Disease. All sale cattle treated with 7 in 1 (booster due Autumn 2018). All sale cattle treated with Dectomax, January 2018. All sale bulls ear notch tested as NOT persistently infected with the BVDV virus. All bulls have been vaccinated with Pestiguard and Vibrovax.

## Interstate Purchasers

The Vendor agrees to hold any stock for interstate buyers until any necessary tests have been completed. Expenses incurred payable by the Purchasers. Should any cattle react, the sale will be cancelled.

## Accommodation and Transport

The Auctioneers or vendors will be pleased to arrange accommodation in Adelaide or Bordertown.

## Buying Orders

The Auctioneer's Stud Stock staff are well acquainted with the herd. Buying orders will be diligently executed by officers experienced in stud beef cattle practice.

## Insurance

Can be arranged for transit and/or periods up to twelve (12) months cover.

## Rebate

A rebate of four percent (4%) will be paid to outside agents in attendance. A rebate of one percent (1%) will be paid to outside agents not in attendance but introducing client in writing prior to the sale.

## BUYER'S INSTRUCTION SLIP - see Page 76

# Breedplan Explanation

**EBV's are provided for the following traits:**

<b>CE DIR</b>	Calving Ease Direct. Indicates how this animal influences the birth of its progeny. Positive EBV's indicate easier calving.
<b>CE DTRS</b>	Calving Ease Daughters. Indicates how well the animal produces daughters that have easier calving.
<b>GL</b>	Lower Gestation Length EBV's indicate easier calving and increased growth after birth.
<b>SS</b>	Scrotal size is an indicator of male fertility in regards to semen quality and quantity. SS is also positively associated with female fertility.
<b>Birth Weight</b>	The lower the birthweight EBV, the lighter is the birthweight potential of the progeny.
<b>Genetic Milk</b>	Reflects extra calf weight at weaning due to the genetic influence a sire has on his daughters milking and mothering ability.
<b>200 Day Weight</b>	Indicates the relative weight advantage of a sire at 8-10 months of age.
<b>400 Day Weight</b>	Indicates the relative weight advantage of a sire at yearling age.
<b>600 Day Weight</b>	The best single estimate of an animals genetic merit for growth beyond yearling age.
<b>MWT</b>	Mature Cow Weight is an estimate of the genetic difference in cow weight at 5 years of age.
<b>CWT</b>	Estimates the genetic difference in carcass weight and is adjusted to 650 days of age.
<b>Fat Depth</b>	Bulls with negative (-) EBV's for this trait are expected to produce relatively leaner progeny than bulls with positive (+) EBV's.
<b>EMA</b>	Bulls with positive (+) EBV's for this trait are expected to produce more muscular progeny than bulls with negative (-) EBV's.
<b>Retail Beef Yield</b>	Bulls with larger EBV's are expected to produce progeny with higher yielding carcasses.
<b>Intramuscular Fat %</b>	Positive EBV's indicate likelihood of more intramuscular fat.
<b>Accuracies</b>	The accuracy provides a measure of the reliability of the EBV. The higher the value, the less likelihood of the EBV changing with the addition of more performance records on the animal.
<b>Selection Indexes</b>	An index ranks an animal for single production goal - profit. They take the hard work out of knowing how much emphasis to give each of the available growth, maternal, carcass and fertility EBV's when selecting parent animals. An index is a composite EBV of traits best suited to a particular production system and target market.
<b>Supermarket Index</b>	Targeting the domestic supermarket trade. Steers are either finished on grass or grain (eg 50-70 days). Steers are assumed marketed at 500kg live weight (270kg HSCW and 12mm P8 fat depth) at 17 months of age. Daughters are retained for breeding. Emphasis has been placed on eating quality and tenderness to favour animals that are suited to MSA requirements.
<b>Grass Fed</b>	Targeting pastured finished steers. Steers are assumed marketed at 600kg live weight (330kg HSCW and 8mm P8 fat depth) at 23 months of age. Daughters are retained for breeding. Emphasis has been placed on eating quality and tenderness to favour animals that are suited to MSA requirements.
<b>Grain Fed</b>	Targeting pastured grown steers with a 125 day feedlot finishing period for the grain fed markets. Steers are assumed marketed at 600kg live weight (330kg HSCW and 20mm P8 fat) at 20 months of age. Daughters are retained for breeding. There is a significant premium if steers reach a marble score of 2 or greater.
<b>EU Index</b>	Targeting pastured or grain finished steers for the EU market. Steers are assumed marketed at 600kg live weight (320kg HSCW and 20mm P8 fat depth) at 20 months of age. Daughters are retained for breeding. Emphasis has been placed on eating quality and tenderness to favour animals that are suited to MSA requirements.

Days Robin Hood H38 won Junior & Grand Champion at both Adelaide Royal and the Melbourne Royal Feature Show in 2013. He has been chosen for both the Herefords Australia Progeny test project and its Black Baldy trial. He is one of 8 sons of prolific cow Fancy U5 to be used in the herd. A son of H38 was Grand Champion Dubbo 2016 selling for \$40,000 to Kanimbla. He is a trait leader for gestation length and EMA. He has 3 sons on offer. His influence through his daughters will be significant; the first examples being lots 4 and 15.

Collingwood J29 was retained for stud use. He has an excellent pedigree, with both sire and dam highly regarded. Anzac E114 has had numerous bulls sell well for many studs, particularly Injemira. Blue Mist E13 is a successful donor with 5 sons in this sale and 3 sons sold previously to average \$16,000. Collingwood J29 has 200 day weight, Rib and rump fat, IMF and the Grainfed index all in the top 1%. 4 sons in this sale.

Anzac H187 sold for \$30,000 at Dubbo in 2014 to Devon Court and Wallan Creek Studs. A son topped the sale last year selling for \$24,000 to Nick and Paul Laucke, Merrina Stud. Dam Dawn B22 has had 9 sons for an average of \$18,100. H187 is a trait leader for Scrotal Size and is in the top 10% for EMA and IMF. Seven sons are in this sale.

## Supporting your business.

Next time you are thinking about a partner for your livestock business, think Elders. Marketing over 1.72 million cattle and 9.5 million sheep each year by our livestock specialists located across Australia and overseas, ensures we have access to the relevant information and trends that will affect your business.

Our team will assist you to select the right sales option, whether that be through online or traditional channels, to ensure the best price is achieved. We can also work with you on improving productivity to gain more meat, wool or milk from your stock, as well as sourcing stock or land, or providing finance options to maintain cash flow. That's why Elders is the right choice to help you make more possible.

# MISSING LEPTOSPIROSIS VACCINATIONS COULD LAY YOU OFF WORK FOR MONTHS

In addition to reducing the reproductive performance of beef and dairy herds, leptospirosis can spread from cattle to humans and develop into an ongoing chronic-fatigue-like illness

Don't risk your family, your employees, yourself or your herd. Vaccinate your cattle with Ultravac® 7in1\*, the only 7in1 that prevents shedding of leptospires, and can be used in calves from 4 weeks of age.

**Protection against leptospirosis and clostridial diseases**

FOR MORE INFORMATION, SPEAK TO YOUR LOCAL ZOETIS REPRESENTATIVE OR CALL 1800 963 847

\*See product leaflet for details of administration and product claims.
